UNITED STATES FOREIGN TRADE  
FEBRUARY 1952

SUMMARY REPORT  
FT 950

FOR IMMEDIATE RELEASE  
April 24, 1952

TRADE BY COUNTRY<sup>1</sup>

The Bureau of the Census, Department of Commerce, announced today that the rise in United States exports of domestic and foreign merchandise, excluding special category commodities, from \$1,137.7 million in January to \$1,191.9 million in February resulted from increased exports to all continents except Europe. The decline in general imports from \$921.6 to \$892.1 million during the same period reflected lower imports from all continents except Australia and Oceania, Asia and Africa.

Exports to South America advanced from \$152.7 million in January to \$188.0 million in February. This advance reflected increases in exports to Brazil, from \$57.9 to \$75.3 million and Venezuela, from \$33.6 to \$43.4 million. From January to February, exports to Asia rose from \$201.9 to \$233.9 million. Exports to India increased from \$61.7 to \$74.9 million while exports to Japan advanced from \$44.6 to \$51.4 million. The increase in exports to North America from \$328.3 million in January to \$353.1 million in February reflected advances in exports to Canada from \$192.3 to \$203.7 million and Cuba from \$39.9 to \$49.4 million. During the same period, exports to Africa rose from \$48.3 to \$55.6 million. Exports to the Belgian Congo increased from \$1.4 to \$8.5 million and exports to Liberia advanced from \$0.5 to \$7.3 million. However, exports to the Union of South Africa declined from \$22.2 to \$17.4 million. A minor increase in exports to Australia and Oceania from \$20.6 million in January to \$22.2 million in February reflected an advance in exports to New Zealand from \$1.8 to \$4.4 million. Meanwhile, the decrease in exports to Europe from \$385.8 million in January to \$338.5 million in February was due chiefly to a decline in exports to some of the countries as follows: West Germany from \$63.1 to \$47.1 million, France from \$41.1 to \$29.3 million, Belgium and Luxembourg from \$34.6 to \$28.0 million and Sweden from \$15.6 to \$10.1 million.

Imports from Europe declined from \$175.9 million in January to \$153.9 million in February with imports from the United Kingdom, which fell from \$39.0 to \$31.2 million, and France, which declined from \$20.4 to \$14.7 million, showing the most important decreases in imports from this continent. The fall in imports from South America from \$189.7 million in January to \$177.9 million in February reflected declines in imports from the following countries of this continent: Chile from \$22.2 to \$13.5 million, Columbia from \$42.0 to \$34.0 million and Venezuela from \$33.9 to \$29.9 million. However, this decline was partially offset by an increase in imports from Brazil from \$69.9 to \$80.4 million. From January to February, imports from North America registered a decline from \$314.7 to \$308.6 million reflecting a decrease in imports from Canada, which dropped from \$187.0 to \$176.8 million, and Mexico, which fell from \$41.2 to \$36.2 million. An increase in imports from Australia and Oceania, which rose from \$15.3 million in January to \$23.4 million in February, was due largely to a rise in imports from Australia from \$8.5 to \$16.6 million. During the same period, imports from Asia advanced from \$157.6 to \$159.7 million. Imports from Africa showed a slight increase from \$68.4 million in January to \$68.6 million in February.

<sup>1</sup>Country of destination detail is not reported in export statistics for Special Category commodities beginning July 1950, for security reasons. Export figures mentioned in the text represent total exports less exports of Special Category commodities. See the January 1952 issue of Foreign Trade Statistics Notes for further explanation and list of Special Category commodities.
